Product, Full-Stack & Digital Marketing Lead | [UMHCS](#)

2017 – 2018 | Maryland

Problem: Needed secure, HIPAA-compliant health records & membership system.

Solution: Built cloud-based EHR/membership management integrating APIs, PayPal/Stripe/ACH.

Impact: Streamlined operations; increased web traffic by 30% via digital marketing.

Tech: *Python/Flask, MySQL, AWS, Stripe/PayPal APIs*

Co-Founder & Architect | [Wasamundi Ltd](#)

2011 – 2017 | Cameroon

Problem: Lack of reliable online directory for local businesses.

Solution: Built a Yelp-like business directory and review site with over 5,000 businesses and 15,000+ registered users.

Impact: Named African Startup of the Year 2013 by Disrupt Africa. Raised \$20K. Created SMS tool (Wasatexto) serving 1K+ businesses and 300K+ phone numbers.

Tech: *PHP, MySQL, Bootstrap, jQuery, AJAX, SMS APIs*

CTO & Software Engineer | [Usepulse](#)

2011 – 2013 | Cameroon & Ohio

Problem: Universities lacked real-time communication with students.

Solution: Designed and deployed Usepulse.com, enabling low-cost student service platforms with SMS, web, and email.

Impact: Improved university–student engagement. Led a 4-person team delivering full-stack + mobile features.

Tech: *PHP, MySQL, Phonegap/Cordova, SMS Gateways*
